MAY END THE STRIKE

Excellent Work Done by Joint Arbitration Commission.

EFFORTS TO SECURE UNIFORMITY.

Two of the Largest Operators in the District Will Head the List, and the Commissioners Feel Satisfied That the Other Operators Will Soon Fall in Line—Circular to the Miners.

PITTSBURG, July 16.—Yesterday was a day devoted to hard work on the part of the joint arbitration commission in their efforts to secure true uniformity in this district as suggested by W. P. Dearmit, and all express themselves as well satisfied with the progress made. Two of the largest operators in the district, W. P. Dearmit and Francis L. Robbins, have consented to head the list, and the commissioners feel satisfied that the other operators will soon fall in line.

It is claimed by the miners' officials, however, that the understanding was that the agreement meant 90 per cent of the output of the district, whereas it is now said to mean 95 per cent of the operators. They say that it will be absolutely impossible to get 95 per cent of the operators, as there are a great many operators mining on a small scale.

General Little of the Ohio arbitration board said that every obstacle had been removed in the way of a settlement along the lines proposed, and that he had not heard of any operators who would not sign.

Commissioner Edward Ridgley and Horace Calef of Illinois left for Chicago yesterday evening to see Colonel W. P. Rend and J. W. Ellsworth, and if possible induce Colonel Rend to return to Pittsburgh and use his influence among the operators to have the agreement signed.

L. P. McCormack of Indiana, another of the commissioners, left for Terre Haute this morning to see J. Smith Talley to secure his co-operation. Mr. Talley is a heavy purchaser of Pittsburgh coal.

The commission has sent a telegram to Senator Mark Hanna, asking him to lend his assistance in having the agreement adopted.

The situation in this district among the miners remains unchanged, except that foreign coal is beginning to cut quite a figure in the Pittsburgh market and the miners' officials recognize its importance. They are, for the time being, satisfied with the small amount of coal that is being dug in the Pittsburgh district and from now on will look after what they term outside encroachments. Much coal is being sold in the Pittsburgh market from the Clearfield and Cambria districts. It is true that it does not come to Pittsburgh, but goes to fill the contracts made at the great lakes. The miners are working at good wages, and it is claimed are willing to come out if the matter is properly brought before them.

"The men in the Clearfield and Cambria districts are working under the delusion that they are not conflicting with the general suspension," said President Patrick Dolan. "We have arranged a conference with some of the leaders in that section, the time of which I am not at liberty to announce. I am satisfied that we will be able to make them see the error of their ways and join us in this great battle for bread. As far as the Pittsburgh district proper is concerned, we have every reason to be satisfied with the situation. It must be borne in mind that when but a few men are in a mine it is not fair to class it among the active list. The fact is, it is impossible to produce coal at a profit in the large mine with only a few men at work. I have hopes in yet being able to get the New York and Cleveland men out. There is very little change in the situation, and is practically as it has been for the last few days."

The local officials are manifesting much interest in the situation in West Virginia. Cameron Miller said that he would be willing to wager that most of the miners of the Mountain state would be out before the end of the week. He said there were about 25,000 miners in that state, and if the organizers succeed in getting 15,000 of them out, the battle could be considered won.

An important feature of the local situation was the shipment of several hundred empty cars from the Pittsburgh and Chicago mines on the Wheeling division of the Baltimore and Ohio to West Virginia. They will be loaded with coal and sent to the lakes, filling contracts made with Pittsburgh operators.

The Pittsburgh operators claim that they were offered coal from all sections of the country and had to refuse a number of propositions. The prevailing price was \$1.50 a ton, no change being acted from the quotations of the day previous. The operators claim that the Enterprise, Bon and Cok mines on the Chartiers branch of the Panhandle, and the Bunola mines on the Monongahela, are running at the 69-cent rate. The latter was recently purchased by the National Rolling Mill company at McKeesport, and is claimed to be running full.

The miners' officials succeeded in keeping the men employed at the Keeling, Eureka and Waverly mines from going to work yesterday at the 69-cent rate, which had been offered to them by their employers.

According to the miners' officials, the operators have closed the company stores all over the district, and supplies to the men have been cut off. This leaves the miner dependent upon the fruits of forage and charity. In one or two agricultural communities, where

the miners are on a strike, the farmers have invited the strikers to organize committees and send them with a wagon into the surrounding country to solicit rather than confiscate supplies. The strikers are taking full advantage of the invitation.

Quiet reigns throughout the Pittsburgh district, a truce seeming to prevail pending the outcome of the peace negotiations.

NO CONFIDENCE IN DEARMIT. Opinion of President Dolan on the Arbitration Scheme.

CHICAGO, July 16.—Colonel W. P. Rend, the coal operator, wired P. Dolan, president of the Pennsylvania miners' union and several Pennsylvania operators last night, asking their opinion of the plan for arbitration of the strike proposed by President W. P. Dearmit of the New York and Cleveland Gas Coal company. In reply he received the following telegram from P. Dolan, president of the Pittsburgh District Miners' union:

"Have no confidence in Dearmit's proposals. He knows 97 per cent of operators will not sign any agreement of this kind. He wants to mislead the public and deceive his miners and keep them at work while other miners hunger to death."

Several operators replied in the same strain, declaring that there was no possibility of the strike being settled on the basis proposed by Mr. Dearmit.

WEST VIRGINIA MINERS COMING OUT. Miners' Officials Find Great Encouragements From These Reports.

HUNTINGTON, W. Va., July 16.—There is a decided change in the coal fields of southern West Virginia, and it is now stated for an absolute certainty that inside of 48 hours a majority of all the miners in the Norfolk and Western and Chesapeake and Ohio railway mines will join the strikers. The organizers are now in both fields, and in the latter the Chesapeake, Belmont and Black Cat mines are now idle, the miners, 600 in number, going out at noon yesterday. The Norfolk and Western miners are still at work, but the strike representatives are confident that matters will come their way in a short time.

On the Kanawha yesterday all the operators raised the price of mining one-fourth of a cent a bushel on soft and one-half a cent on hard coal, but it is believed this will not hold the men in line.

TRYING TO HOLD THEIR MEN. West Virginia Operators Have Advanced the Price of Mining.

CINCINNATI, July 16.—A number of coal operators met here yesterday to try and devise some means to prevent the present strike among the miners from spreading. Their deliberations were kept a secret, but it has leaked out that they agreed that the West Virginia operators should increase the price for mining coal in order to keep their men from joining the general strike.

The Enquirer sent telegrams to all mining points in that state to ascertain what would be done. The special telegrams indicate that the West Virginia miners will come out after this week.

The miners at Flemington and Aurora came out yesterday.

Eugene V. Debs and President Ratford will speak at Fairmont Saturday. The men from 18 mines will then form a procession, and they are expected to vote to strike.

National Executive Committee member Fred Ditcher addressed meetings at Montgomery yesterday and Crown Hill last night, and induced the miners at the following mines not to go to work this morning: Coalburg, East Bank, Black Cat, Belmont, Riverside, Chesapeake and Big Mountain. The Chesapeake and other mines had already granted the advance asked for by the miners.

Break in the Fairmont Region.

FAIRMONT, W. Va., July 16.—The first important break in the Fairmont mining region occurred yesterday, when the Aurora and Simpson men threw their lots with their striking brethren of Ohio and Indiana. The men at Flemington are out also. It is thought a general strike will follow. A mass-meeting has been called for tomorrow, which is pay day at the Monongah, when President Ratford and Eugene Debs will speak. The result is being awaited with great interest.

Struck Oil.

PRESTONBURG, Ky., July 16.—The Corning Oil company of Ohio struck oil on Wilson creek, 18 miles south of here, at a depth of 1,000 feet. The company claims the well will produce only one barrel a day. This is the sixth well drilled by this company in this county.

Boy Driven to Suicide by Pain.

SISTERSVILLE, W. Va., July 16.—The intelligence has just been received here of the suicide by shooting of Herman Porter, aged 15, living about four miles over in Ohio. Mental aberration caused by intense pain is the supposed cause.

Delmonico Loses His Mind.

NEW YORK, July 16.—A dispatch to The World from London says that Charles Delmonico, the New York caterer, is dangerously ill in Paris, his mind having failed.

MATANZAS INVADED.

Cuban Insurgents Go Wherever They Please.

WEYLER UTTERLY DISCOURAGED.

He Has Left Sancti Spiritus and Is Now at Cienfuegos on His Way Back to Havana. General Gomez Circulates a Manifesto in Havana—Other Information From Cuba.

NEW YORK, July 16.—A dispatch to The Herald from Havana says: The invasion of Matanzas by insurgent forces on their march westward is now an accomplished fact. The local papers are prohibited from publishing even accounts of "official victories" in the province, the object being to discredit the news of unusual activity. General Weyler may suppress, but he can not conveniently hide wounded soldiers and these keep coming in. The Herald's correspondent writes that Colonel Alvarez, Armandez, with 70 men, was completely routed July 11, near Jagney Grande by Insurgent General Carrillo. The Spanish lost 20 killed and about the same number wounded. During the fight 25 of the Spaniards deserted and went over to the insurgents.

A report is current and generally believed in Matanzas that the insurgents have attacked and partially burned Cardenas. There are fully 5,000 rebels in the vicinity of Matanzas City and Cardenas. General Molina left Matanzas with a strong column. The owner of the Alexander estate near Navajas, has been ordered by the Spaniards to garrison his estate.

General Weyler has not succeeded in capturing Gomez, and has evidently given up the idea, for he has left Sancti Spiritus and is now at Cienfuegos on his way back to Havana. Gomez is said to be in Matanzas, but there is reason to believe that he is again directing operations from headquarters now established in Monteo Seuro, in Santa Clara.

A manifesto signed by General Gomez and addressed to his generals, has been freely circulated in Havana.

HAVANA DISPATCHES.

A Few More Spanish Victories (?) Officially Reported.

HAVANA, July 16.—Official reports from Cienfuegos, where Captain General Weyler is announced to have arrived, state that the Sagunto squadron has defeated the insurgents in Platanos, forcing them to retire, leaving 19 of their number dead upon the field. The Spaniards captured a quantity of arms and munitions of war, besides a splendid outfit of surgical instruments.

An engagement is reported to have taken place at Bahia Honda, province of Pinar del Rio, in which the insurgents were defeated with a loss of 18 killed, among them a major. Seven more of the insurgents are reported to have surrendered.

Reports from Pinar del Rio state that 78 rebels have surrendered in that province. Thirty-three of those who gave themselves up were armed and 45 unarmed.

LOST MINE DISCOVERED.

Awful Experiences of the Men Who Found It.

PHOENIX, A. T., July 16.—John F. James and Henry Blake have returned from the desert region near the Mexican border, bringing a story of extreme suffering and of success in the discovery of the famous California mine, one of the most famous of the lost mines of the southwest.

The mine lies 80 miles south of San Tiniet station, on the Southern Pacific, in a region that appears absolutely waterless. For 10 days the men and their burros were compelled to live by drinking the bitter juice of the cactus. The men are terribly broken down through their sufferings on the blazing desert. They could stay at the mine only a short time, but brought back samples of gold-specked ore taken from the bottom of the shaft, where yet were the tools left by the miners of 30 years ago. They will outfit and return as soon as they regain strength.

ALLIANCE AGAINST US.

Spain and Japan Combining For Mutual Protection.

LONDON, July 16.—A dispatch from Paris to a news agency here says that inquiry at the American embassy there has elicited a confirmation of the rumor that the governments of Spain and Japan have arranged an offensive alliance against the United States.

The terms of the understanding, which is for the mutual protection of Cuba and Hawaii, provide that in the event of an actively aggressive movement on the part of the United States tending toward interference in Cuban affairs or persistence in the annexation of the Hawaiian islands, both Spain and Japan shall declare war simultaneously against the United States and shall make hostile demonstrations along both the Atlantic and Pacific coast lines of that country.

WASHINGTON C. H., O., July 16.—While Hiram Clark, a farmer, living two miles north of this city, was hauling wheat he attempted to get off his wagon. His feet became entangled in the lines, throwing him to the ground and his head fell under the wagon wheel, which passed over his face, breaking both jaw bones and other facial bones and mutilating his face in a horrible manner. He is in a critical condition.

THREE OF THEM DEAD.

Five Foolhardy Young Men Attempt to Cross a River.

MANCHESTER, N. Y., July 16.—Five young men made a foolhardy attempt to cross the Piscataquog river in a rickety scow less than 25 feet above the falls at Baldwin's bobbin shop, and as a result three lost their lives.

The boys, whose ages varied from 17 to 22, started out with no oars, but pieces of boards for paddles. The river is extremely high. The swift current carried the boat toward the dam with alarming rapidity.

The boys all jumped as the scow hung for a minute on the flashboards and landed on the rocks below the falls.

Frank Simard, 17, was swept beneath the dam and drowned.

Joseph Lavoc, 20, and Thomas Terrien, 20, also went down.

Sam L. Lavoc and George Terrien were swept ashore and escaped.

None of the bodies have been recovered.

WAS IT HUMAN FLESH?

Startling Developments in the Chicago Sausage Factory Mystery.

CHICAGO, July 16.—The police have brought forth what may be the strongest bit of evidence against A. L. Luetgert, the sausage man, charged with murdering his wife and then destroying the body with a powerful alkali and the furnace fire.

Guided by Frank Oderofsky, a smoker formerly employed in the factory, officers dug down at a spot in the factory yard and unearthed a mass of flesh as large in size as a man's head.

The smoker stands ready to swear that shortly after the alleged crime he gathered up this mass in the "ring" vat in the basement at Luetgert's orders and buried it. The flesh is in the possession of the state's experts.

THE X RAY IN MINING.

The Camera Reveals the Gold Hidden in a Solid Rock.

LOS ANGELES, July 16.—To apply the X ray to mining is a novel idea, which has just been developed by Dr. Finis E. Yoakum. He has fixed the ray upon a piece of quartz whose exterior showed no indication of gold, and imprinted upon the photographic plates were shadows of the precious metal within.

Recently the physician was photographing a lump. There were some vacant spaces on the plate, and just for luck he put thereon a bit of gold-bearing quartz. When the plate was developed there stood forth upon it an outline of rock with specks here and there, showing the presence of gold. Since that day he has taken a number of pictures of valuable ores.

COUNTERFEIT TEN.

It Is Poorly Executed and Very Easily Detected.

WASHINGTON, July 16.—Chief Hazen of the secret service has given notice of the discovery of a new counterfeit \$10 silver certificate. It is of the series of 1891, check letter D, with the small carmine seal, the portrait of Hendricks and the names of Messrs. Tillman and Morgan as register and treasurer respectively.

The counterfeit is described as apparently a wood-cut production very poorly executed, the seal being light pink instead of carmine, the numbering irregular and the printing and engraving bad.

Didn't Do a Thing to Him.

NASHVILLE, July 16.—A special to The American from Iron City near West Point, Lawrence county, states that Williams, the negro rapist and murderer, after being turned over to the citizens of West Point, and while on the way back to the scene of the murder of Miss Williams, was knocked down in the road with a rock and afterward stamped and trampled to death by the throng having him in charge. Afterward the body was shot to pieces with pistols, shotguns and rifles and his head blown from his body. Then the body was saturated with oil and burned. There is no question but that he was the guilty party.

A Peculiar Will.

NEW YORK, July 16.—The will of William H. Locke, the retired wholesale liquor merchant of Cincinnati, who died in this city July 7, was filed for probate yesterday, and by it the entire estate, the value of which is estimated at more than \$250,000, is left to James W. Pringle. No mention of any relative is made. It is provided that in case Mr. Pringle dies the property is to go to his heirs and not to any relatives of the dead man. Mr. Pringle was formerly a partner with Mr. Locke in the liquor business in Cincinnati.

Quick Justice.

CLARKSBURG, Tenn., July 16.—Train-robbler Gus Hyatt, who robbed a Louisville and Nashville express messenger in June near Guthrie, Ky., just over the state line in Tennessee, was indicted by a special grand jury at 11 o'clock, and tried, convicted and sentenced before 1 o'clock yesterday. He got the limit in this state for such a crime, 15 years in the penitentiary.

BUTLER, Ind., July 16.—The large barn of C. H. Emery, near Hamilton, was struck by lightning and destroyed. This year's crop of wheat was in the barn. There was no insurance.

Another Daily Paper.

PRINCETON, Ind., July 16.—Princeton is to have another daily paper. The Clarion will soon issue a morning Republican paper, making three daily papers in the city.

AWAITING A VERDICT

MILLERSBURG, O., July 16.—The investigation of the recent railroad collision here is now going on before the coroner of Summit county, at Akron, and a number of witnesses from here are in attendance.

The attorneys for the Cleveland, Akron and Columbus and Baltimore and Ohio roads are watching things closely in this investigation, as it may determine in part the question as to which of these roads must pay the damages resulting from this disaster. Lightning also struck a 28,000-barrel tank belonging to the Paragon Oil company. It was also completely destroyed. The total loss is about \$40,000.

Fast Drilling.

BOWLING GREEN, O., July 16.—The fastest time ever made in the Ohio oil fields drilling an oil well has been made by Burns & Houser of this city on the Canfield farm, for W. H. Millikin & Company. One thousand, one hundred and eight feet to the Trenton rock, was finished in 5 days and 21 hours.

CHARGED WITH MURDER.

A Couple That Tried to Kill Themselves Are Now Locked Up.

CINCINNATI, July 16.—One week ago George and Lettie Jacobs were found in a dying condition on a log raft in the Ohio river just above this city, having taken laudanum and severed the arteries in their wrists. The body of their dead child was found in the river near them. It has since developed that they had for sometime contemplated getting rid of the babe and then commit suicide together. The laudanum did not have the desired effect and then they slashed themselves with a razor, but were found before they died.

Both of the parents are now recovering. Yesterday the coroner rendered a verdict charging them with murdering their child and last night the couple were arrested and transferred from the hospital to the police station.

BOSTON Transcript: "In his short reign,
 Lieutenant Governor Worthington, of
 Kentucky, pardoned one hundred men, in-
 cluding persons convicted of murder and
 other high crimes. But who shall par-
 don Lieutenant Governor Worthington?

SENATOR WHITE, of California, re-
 marked a few days ago: "When this
 trust protecting bill is passed all the
 trusts in the country ought to give a re-
 ceipt in full to the Chairman of the Na-
 tional Republican Committee." And
 then he looked hard at Senator Hanna,
 and they say the latter's face grew very
 red. No wonder.

A NEW YORK STORY

That Nine Big Railroads Are to be Operated
 by Electricity—The C. and O.
 Included.

[Enquirer.]

Whoever originated the New York
 story that J. P. Morgan & Co. would in
 the near future equip nine of the principal
 railroads in the country with a third
 rail and operate them by electricity as an
 economical measure must have taken
 several draws at the pipe.

As the story goes the roads to be
 equipped and operated by electricity are
 the Big Four, Chesapeake and Ohio, New
 York Central, Erie, Reading, Lehigh
 Valley, Southern Railway and a couple
 of other roads said to be controlled by
 the New York brokers. The cost of
 making the change to electricity is to be
 but the insignificant sum of \$545,000,000.

Electricity will be the motive power
 that will replace steam on the railroads
 some day, but it will have to be a good
 deal cheaper than at present before it
 will displace the present iron horse.

On account of the numerous plants
 that would be required under the present
 electric system for operating a road of
 any length steam is still much cheaper
 than electricity. For short runs and for
 operating suburban trains at frequent
 intervals electricity is probably cheaper
 than steam, but not for long runs.

ANOTHER RIP SNORTER

From the Governor's Organ—This Time It
 is After the State Board
 of Health.

[Frankfort Capital.]

"And Asa in the thirty and ninth year
 of his reign was diseased in his feet; yet
 in his disease he sought not to the Lord,
 but to his physicians. And Asa slept with
 his fathers."

Such is the sadly sarcastic story told in
 the Bible of one of the Kings of Israel,
 and it is the history of the world that
 these medicine men from those that ex-
 orcise devils in Africa's jungles to those
 who monkeyed with poor Garfield until
 he to *slept with his fathers* from a wound
 that any army surgeon would have cured
 in a common soldier—all through the
 sorrowing tale of humanity in sacred and
 profane history the regularly recognized
 doctors have humbugged the sons and
 daughters of Adam, despoiled them of
 their substance, and at last, sent them to
 untimely graves.

Here was poor Asa, with something
 the matter with his feet, probably corns
 or gout, and the doctors didn't do a thing
 to him, but put him to sleep with his
 fathers. It is perhaps necessary for peo-
 ple to conform to custom and give the
 doctors a chance, but the experience of
 Asa should teach men always to seek
 help from the Lord when the doctors do
 get hold of them.

The Word of God fairly bristles with
 denunciation of the regular physicians,
 the ones who are regularly licensed. In
 the thirteenth chapter of Job, that great
 example of patience is portrayed as hav-
 ing, among his other afflictions, fallen
 into the hands of the physicians, but
 even the grace of God that enabled Job
 to stand everything else, failed him in
 this emergency, and he broke out with
 this roast of the profession:

Job XIII, 4, "But ye are forgers of lies,
 ye are all physicians of no value."

The doctors were among those who
 crucified the Savior for healing the sick,
 restoring sight to the blind and making
 the lame to walk, all in an irregular way
 and without joining the regular profes-
 sion. But that this blind adherence to
 the prejudices of the dark ages is hard-
 ly compatible with the enlightenment of
 the closing moments of the nineteenth cen-
 tury.

The State Board of Health is the worst
 specimen of cussedness and cold pressed
 nerve that has appeared since the Darien
 company was organized in Edinburgh.
 Here are lot of Kentucky doctors, Hunter
 and Deboe were among them, most of
 whom, at the best, have nothing more to
 justify their pretensions to skill, than
 their experience of two years at some
 Louisville medical college; and these
 physicians say that other doctors shall
 not be allowed to practice in Kentucky
 because they are "quacks." And a quack
 is a doctor who pays for his advertising.
 A regular doctor does his advertising free
 of charge, through the society columns,
 or the base ball columns. When some
 player is taken sick, forty doctors at
 once bolt into the field and then proudly
 go to the reporter's stand to get them-
 selves written up. But the doctor who
 pays is a quack.

The doctors who are in control of the
 present skin game in Kentucky would
 like to maintain a monopoly and so by a
 trick of law and an act of some fool Leg-
 islature they have got it fixed so that the
 State Board of Health, that never sug-
 gested an idea or performed a single
 public service, can go right along perse-
 cuting the doctors who want to furnish
 low priced treatment for special diseases.

Professors in the medical schools in
 Louisville are not necessarily competent
 doctors; not by any means. Some of
 them are good physicians and honest
 men while some are humbugs and scound-
 rels. Some of them make blunders and
 kill people and the others cover up the
 crime. Some of them make it a rule
 never to let a patient get out of their
 hands as long as they can hold on. They
 keep coming until the patient is well and
 out in the city attending to business, and
 in this way these regular physicians run
 up big bills. * * * That there are
 good, capable, conscientious doctors is a
 fact, but the State Board of Health pro-
 vides no means by which there is any
 selection between the good and bad, but
 only a means of *holding up the price, a doc-
 tors' trust*, a skin game that stands in with
 the police power of the State. The very
 best thing that could be done would be
 to turn the doctors loose, and let the
 "regulars" and the "irregulars" fight it
 out. Then when somebody was killed by
 some blunder or experiment, there would
 be at least a chance to have the crime
 exposed. And abolish the State Board
 of Health.

KENTUCKY'S ANCIENT CLAIM

To Legal Jurisdiction Over the Ohio River
 Sustained.

Kentucky's ancient claim to legal ju-
 risdiction over the Ohio river to low water
 mark on the Ohio and Indiana shores
 was recognized a few days ago by United
 States Commissioner Hooper in a case
 that was brought before him at Cincin-
 nati.

It was that of Wm. Hall, who is ac-
 cused of shooting John Lewis in an affray
 on the steamer Telegraph while the boat
 was enroute to Cincinnati.

Hall was arrested and turned over to
 the police of that city. The United
 States Marshal felt that the shooting was
 an offense under the admiralty statutes
 of the United States, and he had it
 brought to the attention of Commissioner
 Hooper, before whom Hall was brought.

The Commissioner, after hearing the
 evidence, decided that the affair, having
 occurred on the river, was properly with-
 in the jurisdiction of the State of Ken-
 tucky, and he remanded Hall back to
 the custody of the police.

The Kentucky authorities were advised
 of the standing of the case.

THE GOLDITES.

Ex-Lieutenant Governor Hindman Nomi-
 nated For Clerk of the Court of
 Appeals.

Ex-Lieutenant Governor Hindman, of
 Adair County, was nominated by the
 "National" Democratic convention at
 Louisville for Clerk of the Court of Ap-
 peals. The nomination was made by ac-
 clamation. Speeches were made by ex-
 Secretary Carlisle, Colonel Henry Wat-
 terson, James C. Simms, Senator Lindsay
 and other less prominent delegates.

Henry Watterson and W. C. P. Breck-
 inridge prepared the resolutions, which
 declared for gold, denounced mobs, in-
 dorsed Cleveland's administration and
 declared for a tariff for revenue only.

Fusion with the Republicans was voted
 down.

Mr. L. Ed. Pearce, formerly of this city,
 was permanent Secretary of the conven-
 tion. Mr. Charles D. Pearce, of this city,
 was the Ninth district's representative on
 the Committee on Organization.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City,
 Ill., was told by her doctors she had cor-
 sumption and that there was no hope for
 her, but two bottles Dr. King's New Dis-
 covery completely cured her and she says
 it saved her life. Mr. Thos. Eggers, 139
 Florida street, San Francisco, suffered
 from a dreadful cold, approaching con-
 sumption, tried without result every-
 thing else, then bought one bottle of Dr.
 King's New Discovery and in two weeks
 was cured. He is naturally thankful. It
 is such results, of which these are sam-
 ples, that prove the wonderful efficacy
 of this medicine in coughs and colds. Free
 trial bottles at J. James Wood's Drug
 store. Regular size 50c. and \$1.

 that ever happened in Kentucky. You'd
 better join our party."

"Well, I'll tell you, Tony," said Hon.
 Bill, "if I was looking' for brains I'd join
 you, but I'm lookin' for votes, and I'll
 stay with the Democrats."

THE sentiments expressed by the Davenport Democrat, which deserted the
 regular Democratic ticket last fall, are,
 no doubt, echoed by a great majority of
 the voters who gave aid to the election
 of Mr. McKinley. In one of its recent is-
 sues it says: "One may be excused for
 getting caught in a trap once, but not a
 second time. They cannot afford to be
 confounded by the Republican gold brick
 sharpeners."

PRESIDENT E. B. ANDREWS, of Brown
 University of Providence, R. I., has just
 returned from Europe, and reports
 the prospects for the demand for bimet-
 allism to be brighter in European coun-
 tries than it has ever been. "Mr. An-
 drews is one of the brightest men in the
 country," adds the Hunterdon (N. J.)
 Democrat, "and his attitude in favor of
 bimetallism is not relished by the gold
 standard monopolists. Great efforts have
 been made to force his resignation from
 the university which he has, through su-
 perior ability, advanced to a leading po-
 sition in this country. On the question
 of finance and financial requirements of
 a great nation, he is an authority, and
 his position in favor of silver is taken
 from pure principle."

Tobacco in Austria.

Austria, with a total population of
 about 43,500,000, consumed in 1896 1,244,-
 000,000 cigars and 1,995,000,000 cigarettes,
 which is about thirty-eight cigars and
 forty-eight cigarettes to every man,
 woman and child in Europe per year.
 Since the manufacture of cigars, cigarettes
 and tobacco is a monopoly of the Austrian
 government the entire income of this in-
 dustry reverts to public uses. The total
 receipts for the year amounted to more
 than 93,000,000 florins (\$37,000,000).

ACCIDENTALLY DROWNED.

John Schmidt, an Old Soldier, Falls Off a Shantyboat, And Finds a Watery Grave.

Some days ago John Schmidt, Thomas M. Shepard and Alonzo Mercer, three inmates of the Soldiers' Home at Dayton, O., concluded to take a pleasure trip down the Ohio river in a shanty-boat. They went to Ironton, but were not able to secure a boat at that point, and then proceeded to Huntington. Here they succeeded in making a purchase, and having laid in some provisions started on their trip.

They reached Maysville, Mr. Shepard's old home, yesterday, and stopped here for a short time to unable the latter to call and see his brother, Mr. Ed. Shepard, of the Fifth ward.

During the afternoon they resumed their journey, but tied up later about 200 yards above the mouth of Three Mile Creek, on the Ohio shore. The water is very deep at this point, and in some way Schmidt fell overboard about 6:30 o'clock last evening and was drowned before his companions could reach him.

One report is that the trio had been drinking and were under the influence of liquor at the time.

All efforts to recover the body had been unsuccessful at last accounts.

Schmidt was a member of Company G, Second Delaware Regiment, during the War. Mercer's home is at Pittsburgh.

The venerable Mr. George W. Davis, a former resident of this city, died Monday, July 12th, at his home in Morganfield, Union County, Ky. He had been gradually failing for some time as a result of the infirmities of old age.

Mr. Davis was born at Brownsville, Pa., but was a resident of this city from 1826 to 1852, when he removed to Morganfield where the rest of his days were spent. He was eighty-six years of age, and was the oldest of a family of four sons and one daughter. He was a brother of Mr. William Davis, of this city, and Mr. Rees Davis, of Mt. Gilead, and was an uncle of Editor Thomas A. Davis, of the Public Ledger. His wife was Miss Elizabeth Whittington. She died a few years ago.

Mr. Davis leaves several children, one of his sons being County Attorney of Union County.

He was a quiet, straightforward and industrious citizen, respected by all who knew him. His wife survives and he leaves two sons and two daughters.

WHEAT PROSPECTS.

America and Russia Must Furnish the Great Bulk Required by Importing Nations.

[Exchange.]

That Europe will be a larger buyer of American farm products this current year is quite fully evidenced by the fact that she thus early in the season has taken quite freely. We are in the midst of a new harvest, when current supplies will be the largest of the crop year. Production will soon cease, for the harvests will be garnered. Ordinarily where supplies are at the highest prices are at the lowest. This is simply a business proposition. Buying so freely and so early in the season suggests that exporters are anticipating their wants—realize that this is the most propitious time to buy in order to secure the extra amounts that will be required by virtue of the partial failure of their own crops. They realize perhaps more fully than do we because of our plethoric supplies the world's smaller production this year.

In the case of wheat—universally in use—the world's requirements for the crop year of 1897-98 must be practically met from the production of 1897 because of the almost total absorption of old supplies, the bins of the world never having been swept cleaner than this year. Out of six countries usually having an exportable surplus of wheat, four are practically out of the field, leaving but two—America and Russia—to furnish the great bulk required by importing nations. The serious outlook in France, which country is usually a very moderate exporter of flour, only emphasizes the seriousness of the situation from an importer's standpoint, because that country will be a competitor with importers rather than with exporters. Advice as she will require to import above 50,000,000 bushels, some say nearly 100,000,000 bushels of wheat. Late advices also assert that Australia—usually an exporter—will be compelled to import. The Danubian section has less than usual if reports are true. India and Argentina will export little until 1898, to say nothing of reported damage to crops in some minor countries that usually produce about sufficient for their own needs.

Last but not least, Russia, our largest competitor, is to have not to exceed an average harvest this year, some reports suggesting less than this.

SENATE AND HOUSE.

No Business Transacted in Either Branch of Congress.

WASHINGTON, July 16.—Pacific railway affairs occupied the attention of the senate throughout the day and the Harris resolution relating to the pending judicial proceedings against the Union Pacific road finally went over.

Early in the day Senators Stewart and White indulged in sharp personalities in connection with the contest over the San Pedro deep-water harbor. The joint resolution was passed accepting the invitation of France to participate in the Paris exposition of 1900.

In the House.

WASHINGTON, July 16.—No business was transacted by the house yesterday. Immediately after the journal was approved a recess was taken on Mr. Cannon's motion until Friday, Mr. Cannon having given assurance to Mr. Bailey that in his opinion a partial or complete conference report on the deficiency bill would be ready by that time.

KILLED FOR HIS MONEY.

Tramps Suspicion of Committing a Foul Murder.

LIGONIER, Ind., July 16.—That John Henry Bruentz was murdered by tramps last Tuesday night is now self-evident. It has been discovered that Bruentz always carried a large amount of money with him. He never kept his doors locked, and tramps have been seen around his home acting in a suspicious manner.

Bruentz lived alone, and had no confidence in any bank. He was very eccentric, and took no one's advice. Blood was found in pools on the floor, and it was also found on an ax handle and upon the furniture. The citizens hope to arrest the murderer, and already have many tramps in custody.

Conductor Badly Hurt.

RICHMOND, Ind., July 16.—John O'Connor, a freight conductor on the Grand Rapids and Indiana railroad, was brought to this city from Winchester in a serious condition as a result of an accident received there. A large iron wheel which had been taken from a car was standing against the station, and fell upon O'Connor, badly crushing him.

She was driving on the Reddington pike, when her horse took fright at a bicycle, ran away and threw her out. She sustained severe bruises, but stranger of all has been unable to hear anything since the accident.

A woman's headaches may come from several causes. She may have a headache arise from nervousness, or from digestive disturbances. Nine cases in ten, her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times, women have been treated for the wrong disorders. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving womankind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The woman who hesitates is invited to send 21 one-cent stamps to cover cost of mailing a copy of Doctor Pierce's Common Sense Medical Adviser, which contains plain, clear information about all of the organs of the human body and their functions.

ANNUAL EXCURSION TO SEASHORE.

The First of the Season Over the C. and O. To Old Point and Fortress Monroe, July 22nd.

Among the numerous resorts of the Atlantic Coast none has maintained its supremacy like Old Point Comfort. An opportunity to visit it at a popular priced round trip rate is always taken advantage of by thousands from the West who prefer it, and rightly too, above the other resorts. The Hygeia Hotel for many years has held its place in popular favor and is so well known as to need no description, but many who have not visited Old Point Comfort since the Chamberlin has reached completion will be delighted with this magnificent hostelry, immense in its proportions, luxuriously furnished, commanding a position at Old Point Comfort which gives to its guests an extended view of Hampton Roads Harbor and the broad Atlantic. Both the Hygeia and Chamberlin are within a stone's throw of Fortress Monroe, the great training school of the United States Army whose mounts, reviews and dress parades are a never failing source of interest to visitors. Some representative ship of the United States navy as well as of some other foreign navies is nearly always anchored in front of Old Point Comfort while short excursions can be made to the soldiers home and Indian Normal School at Hampton (ten minutes ride by electric cars) or to the Gosport navy yard at Portsmouth, opposite Norfolk, Va., (forty-five minutes by steamer), or to Ocean View across Hampton Roads (twenty minutes by steamer) or to Virginia Beach (reached by rail in thirty minutes from Norfolk) or to the \$3,000,000 ship yards and the foreign and domestic shipping at Newport News (reached in twenty-five minutes by train). These attractions with its surf bathing and fishing gives a greater variety to the scenes around Old Point Comfort than to any other American seashore resort.

The Hygeia and Chamberlin make a rate of \$2.50 per day for this occasion. Round trip tickets will be sold for the F. V. Limited leaving Cincinnati 12:01 noon and for the Atlantic Express leaving Cincinnati 9:10 p. m. Thursday, July 22nd, at the following rates:

From Cincinnati, Maysville and intermediate stations, \$12; from Portsmouth, \$11; from Iron-ton, Ashland and Catlettsburg, \$10; from Huntington, Va., \$9.50 for the round trip. Tickets will be good returning within fifteen days from date of sale. They will be for continuous passage to Old Point Comfort on the going trip. On the return trip stopover privileges will be granted at Richmond, Va., Natural Bridge, Hot Springs, Va., White Sulphur Springs and other famous mountain resorts.

The scenery of the Chesapeake and Ohio along the Ohio, Kanawha, New and Greenbrier rivers and across the Allegheny Mountains is of so grand and varied a nature as to well repay one for making the trip even if the attractions at the coast were not so great.

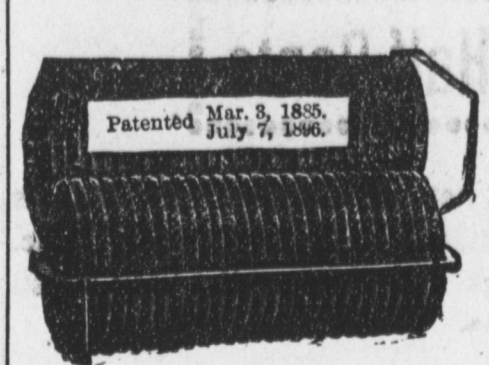

Pullman sleeping car reservations should be made in advance by addressing C. B. Ryan, Assistant General Passenger Agent, Cincinnati, O.
